AMENDMENTS TO THE CLAIMS

Please amend claims 1, 16, and 31 as follows.

The following is a complete list of all claims in this application.

1. (Currently amended) A massaging bed cushion for supporting a person in a sitting position, comprising:

a backrest with two side edges;

two armrests rotatably coupled to the backrest wherein the two armrests can rotate, while remaining coupled to the backrest, from a sitting position to a folded position along the two side edges of the backrest; and

one or more massaging units within the backrest.

2. (Original) The massaging bed cushion of claim 1, wherein the two armrests are perpendicular to the backrest in the sitting position.

3. (Original) The massaging bed cushion of claim 1, wherein the two armrests rotate from zero to one hundred and eighty degrees from the backrest.

4. (Original) The massaging bed cushion of claim 1, wherein the sitting position is formed by rotating the two armrests from about forty-five to about one hundred and thirty-five degrees from the backrest.

5. (Original) The massaging bed cushion of claim 1, further comprising: one or more latches that prevent the two armrests from rotating about the backrest beyond the sitting position.

6. (Original) The massaging bed cushion of claim 1, wherein the backrest and the two armrests form nearly a rectangular top profile in the folded position.

7. (Original) The massaging bed cushion of claim 1, wherein the one or more massaging units are massaging motors.

8. (Original) The massaging bed cushion of claim 1, wherein the one or more massaging units are pulsating transducers.
